LIST OF CONTENTS

VOLUME 42

NUMBER 1

David Stanley-Samuelson and Bruce Webb 1 Preface

Hemocytes

J. S. Miller, R. W. Howard, T. Nguyen, A. Nguyen, R. M. T. Rosario and D. W. Stanley-Samuelson 3 Eicosanoids mediate nodulation responses to bacterial infections in larvae of the tenebrionid beetle, *Zophobas atratus*

William L. Diehl-Jones, Craig A. Mandato, Geoff Whent and Roger G. H. Downer 13 Monoaminergic regulation of hemocyte activity

Michael R. Strand and Jena A. Johnson 21 Characterization of monoclonal antibodies to hemocytes of *Pseudoplusia includens*

Immune Suppression

Bruce A. Webb and Shirley Luckhart 33 Factors mediating short- and long-term immune suppression in a parasitized insect

M. D. Lavine and N. E. Beckage 41 Temporal pattern of parasitism-induced immunosuppression in *Manduca sexta* larvae parasitized by *Cotesia congregata*

Anti-bacterial Peptides

Peter B. Armstrong, Ralph Melchior and James P. Quigley 53 Humoral immunity in long-lived arthropods

Virginia Russell and Peter E. Dunn 65 Antibacterial proteins in the midgut of *Manduca sexta* during metamorphosis

Lei Zhao and Michael R. Kanost 73 In search of a function for hemolin, a hemolymph protein from the immunoglobulin superfamily

Serguei Chernysh, Stéphane Cociancich, Jean-Paul Briand, Charles Hetru and Philippe Bulet 81 The inducible antibacterial peptides of the Hemipteran insect *Palomena prasina*: identification of a unique family of proline-rich peptides and of a novel insect defensin

I Contents of *Insect Biochemistry and Molecular Biology*

II Diary

IV Instructions to Authors

NUMBER 2

I. Mazet and D. G. Boucias 91 Effects of the fungal pathogen, *Beauveria bassiana* on protein biosynthesis of infected *Spodoptera exigua* larvae

David Martín, Maria-Dolors Piulachs and Xavier Bellés 101 Production and extraovarian processing of vitellogenin in ovariectomized *Blattella germanica* (L.) (Dictyoptera, Blattellidae)

Josiane Girardie, Olivier Richard and Adrian Girardie 107 Detection of vitellogenin in the haemolymph of larval female locusts *(Locusta migratoria)* treated with the neurohormone, Lom OMP

Robert C. Jamroz, Jaap J. Beintema, Whytze T. Stam and James Y. Bradfield 115 Aromatic hexamerin subunit from adult female cockroaches (*Blaberus discoidalis*): molecular cloning, suppression by juvenile hormone, and evolutionary perspectives

Tetsuhiko Sasaki, Maki Kawamura and Hajime Ishikawa 125 Nitrogen recycling in the brown planthopper, *Nilaparvata lugens*: involvement of yeast-like endosymbionts in uric acid metabolism

G. A. Horridge 131 Vision of the honeybee *Apis mellifera* for patterns with two pairs of equal orthogonal bars

Emile Van Handel and Marc J. Klowden 139 Defecation by the mosquito, *Aedes aegypti*, is controlled by the terminal abdominal ganglion

C. A. Mandato, W. L. Diehl-Jones and R. G. H. Downer 143 Insect hemocyte adhesion *in vitro*: inhibition by apoliphorin I and an artificial substrate

S. L. Sheridan, K. A. Iversen and H. Itagaki 149 The role of chemical senses in seed-carrying behavior by ants: a behavioral, physiological, and morphological study

M. Z. Sukhanova, L. G. Grenback, N. E. Gruntenko, T. M. Khlebodarova and I. Y. Rauschenbach 161 Alkaline phosphatase in *Drosophila* under heat stress

Jadwiga M. Giebultowicz and Jan Zdarek 167 The rhythms of sperm release from testis and mating flight are not correlated in *Lymantria* moths

P. Cassier, J. Lévieux, M. Morelet and D. Rougon 171 The mycangia of *Platypus cylindrus* Fab. and *P. oxyurus* Dufour (Coleoptera: Platypodidae). Structure and associated fungi

Vasant L. Kallapur, Chanana Majumder and R. Michael Roe 181 *In vivo* and *in vitro*-tissue specific metabolism of juvenile hormone during the last stadium of the cabbage looper, *Trichoplusia ni*

I Contents of *Insect Biochemistry and Molecular Biology*

III Diary

VI Instructions to Authors

NUMBER 3

K. S. Johnson and G. W. Felton 191 Physiological and dietary influences on midgut redox conditions in generalist lepidopteran larvae

N. Suzuki, T. Okuda and H. Shinbo 199 Sperm precedence and sperm movement under different copulation intervals in the silkworm, *Bombyx mori*

D. M. Lonard, G. Bhaskaran and K. H. Dahm 205 Control of prothoracic gland activity by juvenile hormone in fourth instar *Manduca sexta* larvae

J. Girardie and A. Girardie 215 Lom OMP, a putative ecdysiotropic factor for the ovary in *Locusta migratoria*

P. B. Koch, P. M. Brakefield and F. Kesbeke 223 Ecdysteroids control eyespot size and wing color pattern in the polyphenic butterfly *Bicyclus anynana* (Lepidoptera: Satyridae)

F. Roces and G. Manrique 231 Different stridulatory vibrations during sexual behaviour and disturbance in the blood-sucking bug *Triatoma infestans* (Hemiptera: Reduviidae)

M. A. Leta, C. Gilbert and R. A. Morse 239 Levels of hemolymph sugars and body glycogen of honeybees (*Apis mellifera* L.) from colonies preparing to swarm

A. E. Douglas 247 Reproductive failure and the free amino acid pools in pea aphids (*Acyrthosiphon pisum*) lacking symbiotic bacteria

P. W. K. Ma, W. L. Roelofs and R. A. Jurenka 257 Characterization of PBAN and PBAN-encoding gene neuropeptides in the central nervous system of the corn earworm moth, *Helicoverpa zea*

M. Renou, C. Gadenne and D. Tauban 267 Electrophysiological investigations of pheromone-sensitive sensilla in the hybrids between two moth species

T. Kotaki 279 Evidence for a new juvenile hormone in a stink bug, *Plautia stali*

Seiji Tanaka 287 A cricket (*Gryllus bimaculatus*) neuropeptide induces dark colour in the locust, *Locusta migratoria*

I Contents of *Insect Biochemistry and Molecular Biology*

II Diary

V Instructions to Authors

NUMBER 4

D. Schelling and G. Jones 295 Analysis of induction of hsc70, hsp82 and juvenile hormone esterase genes by heat shock in *Trichoplusia ni*

J. M. Mojica and D. L. Bruck 303 Sperm bundle coiling: transporting long sperm bundles in *Drosophila dunni dunni*

B. Vauchot, E. Provost, A. G. Bagneres and J. L. Clement 309 Regulation of the chemical signatures of two termite species, *Reticulitermes santonensis* and *Reticulitermes lucifugus grassei*, living in mixed experimental colonies

C. Bressac and E. Hauschteck-Jungen 323 *Drosophila subobscura* females preferentially select long sperm for storage and use

J. J. Neal, D. Wu, Y. S. Hong and M. Reuveni 329 High affinity transport of histidine and methionine across *Leptinotarsa decemlineata* midgut brush border membrane

M. M. Balgopal, B. A. Dover, W. G. Goodman and M. R. Strand 337 Parasitism by *Microplitis demolitor* induces alterations in the juvenile hormone titers and juvenile hormone esterase activity of its host, *Pseudoplusia includens*

J. R. B. Lighton and L. J. Fielden 347 Gas exchange in wind spiders (Arachnida, Solphugidae): independent evolution of convergent control strategies in solphugids and insects

N. Tomic-Carruthers, D. C. Robacker and R. L. Mangan 359 Identification and age-dependence of pteridines in the head of adult Mexican fruit fly, *Anastrepha ludens*

Bronisław Cymborowski 367 Expression of c-*fos*-like protein in the brain and prothoracic glands of *Galleria mellonella* larvae during chilling stress

G. A. Horridge 373 The relation between pattern and landmark vision of the honeybee (*Apis mellifera*)

Gabriele Wiesel, Sonja Tappermann and August Dorn 385 Effects of juvenile hormone and juvenile hormone analogues on the phase behaviour of *Schistocerca gregaria* and *Locusta migratoria*

M. Stankiewicz, F. Grolleau, B. Lapied, L. Borchani, M. El Ayeb and M. Pelhate 397 Bot IT_2, a toxin paralytic to insects from the *Buthus occitanus tunetanus* venom modifying the activity of insect sodium channels

X. Vafopoulou, C.-H. Sim and C. G. H. Steel 407 Prothoracicotropic hormone in *Rhodnius prolixus*: *in vitro* analysis and changes in amounts in the brain and retrocerebral complex during larval–adult development

K. Takadera, M. Yamashita, M. Hatakeyama and K. Oishi 417 Similarities in vitellin antigenicity and vitellogenin mRNA nucleotide sequence among sawflies (Hymenoptera: Symphyta: Tenthredinoidea)

I Contents of *Insect Biochemistry and Molecular Biology*

III Diary

VI Instructions to Authors

NUMBER 5

K.-Y. Lee and D. L. Denlinger 423 Diapause-regulated proteins in the gut of pharate first instar larvae of the gypsy moth, *Lymantria dispar*, and the effect of KK-42 and neck ligation on expression

G. B. Flores and C. R. Lazzari 433 The role of the antennae in *Triatoma infestans*: orientation towards thermal sources

C. Wu, T. Yamashita, H. Taira and K. Suzuki 441 Free nucleotides related to the induction of diapause in the silkworm, *Bombyx mori*

J. M. Hinton, R. H. Osborne, H. Bartosz-Bechowski and D. Konopinska 449 Myotropic effects of proctolin analogues, modified in position 2 of the peptide chain, on the foregut of the locust *Schistocerca gregaria*

P. Wappner, T. L. Hopkins, K. J. Kramer, J. L. Cladera, F. Manso and L. A. Quesada-Allué 455 Role of catecholamines and β-alanine in puparial color of wild-type and melanic mutants of the Mediterranean fruit fly (*Ceratitis capitata*)

N. Balderrama, J. Núñez, M. Giurfa, J. Torrealba, E. G. De Albornoz and L. O. Almeida 463 A deterrent response in honeybee (*Apis mellifera*) foragers: dependence on disturbance and season

M. Soller and B. Lanzrein 471 Polydnavirus and venom of the egg–larval parasitoid *Chelonus inanitus* (Braconidae) induce developmental arrest in the prepupa of its host *Spodoptera littoralis* (Noctuidae)

U. Gehrken and Y. O. Doumbia 483 Diapause and quiescence in eggs of a tropical grasshopper *Oedaleus senegalensis* (Krauss)

H. D. Prange 493 Evaporative cooling in insects

P. D. Schreuders, J. N. Kassis, K. W. Cole, U. Schneider, A. P. Mahowald and P. Mazur 501 The kinetics of embryo drying in *Drosophila melanogaster* as a function of the steps in permeabilization: experimental

517 Editorial Announcement

I Contents of *Insect Biochemistry and Molecular Biology*

III Diary

V Instructions to Authors

NUMBER 6

Yin-Fu Chang, Maurice J. Tauber and Catherine A. Tauber 521 Reproduction and quality of F1 offspring in *Chrysoperla carnea*: differential influence of quiescence, artificially-induced diapause, and natural diapause

Olufemi Ayoade, Surtao Morooka and Sumio Tojo 529 Induction of macroptery, precocious metamorphosis, and retarded ovarian growth by topical application of precocene II, with evidence for its non-systemic allaticidal effects in the brown planthopper, *Nilaparvata lugens*

F. R. Dani, E. D. Morgan and S. Turillazzi 541 Dufour gland secretion of *Polistes* wasps: chemical composition and possible involvement in nestmate recognition (*Hymenoptera: vespidae*)

Patrice Eslin and Geneviève Prevost 549 Variation in *Drosophila* concentration of haemocytes associated with different ability to encapsulate *Asobara tabida* larval parasitoid

Robert A. Bell 557 Manipulation of diapause in the gypsy moth, *Lymantria dispar* L., by application of KK-42 and precocious chilling of eggs

Thomas Heinbockel and Karl-Ernst Kaissling 565 Variability of olfactory receptor neuron responses of female silkmoths (*Bombyx mori* L.) to benzoic acid and (±)-linalool

T. M. Amos, D. B. Gelman and K. A. Mesce 579 Steroid hormone fluctuations regulate ganglionic fusion during metamorphosis of the moth *Manduca sexta*

Thomas M. Clark and Timothy J. Bradley 593 Stimulation of Malpighian tubules from larval *Aedes aegypti* by secretagogues

P. D. Schreuders, J. N. Kassis and P. Mazur 603 The kinetics of embryo drying in *Drosophila melanogaster* as a function of the steps in permeabilization: theoretical

I Contents of *Insect Biochemistry and Molecular Biology*

III Diary

V Instructions to Authors

NUMBER 7

S. J. Coulson and J. S. Bale 617 Supercooling and survival of the beech leaf mining weevil *Rhynchaenus fagi* L. (Coleoptera: Curculionidae)

S.-H. Gu and Y.-S. Chow 625 Regulation of juvenile hormone biosynthesis by ecdysteroid levels during the early stages of the last two larval instars of *Bombyx mori*

H. L. Troyer, C. S. Burks and R. E. Lee, Jr 633 Phenology of cold hardiness in reproductive and migrant monarch butterflies (*Danaus plexippus*) in southwest Ohio

K. S. Shelby and G. M. Chippendale 643 Factors regulating lipophorin synthesis by the larval fat body of the southwestern corn borer, *Diatraea grandiosella*

C. R. B. Boake and S. Moore 649 Male acceleration of ovarian development in *Drosophila silvestris* (Diptera, Drosophilidae): what is the stimulus?

S. P. Foster and R. H. Ayers 657 Multiple mating and its effects in the lightbrown apple moth, *Epiphyas postvittana* (Walker)

O. Yamashita 669 Diapause hormone of the silkworm, *Bombyx mori*: structure, gene expression and function

D. S. Koveos and A. Veerman 681 Involvement of the circadian system in photoperiodic termination of diapause in the spider mite *Tetranychus urticae*

G. A. Horridge 693 Pattern vision of the honeybee (*Apis mellifera*): the significance of the angle subtended by the target

P. Wappner and L. A. Quesada-Allué 705 Water loss during cuticle sclerotization in the medfly *Ceratitis capitata* is independent of catecholamines

F. Dittmann and A. Münz 711 Yolk formation in the telotrophic–meroistic ovariole of *Dysdercus intermedius* depends on extracellular sodium

I Contents of *Insect Biochemistry and Molecular Biology*

III Diary

VI Instructions to Authors

NUMBER 8

H. G. McWatters and D. S. Saunders 721 The influence of each parent and geographic origin on larval diapause in the blow fly, *Calliphora vicina*

V. Košťál and P. Šimek 727 Biochemistry and physiology of aestivo-hibernation in the adult apple blossom weevil, *Anthonomus pomorum* (Coleoptera: Curculionidae)

I. Yu. Rauschenbach, N. E. Gruntenko, T. M. Khlebodarova, M. M. Mazurov, L. G. Grenback, M. Jh. Sukhanova, L. V. Shumnaja, I. K. Zakharov and B. D. Hammock 735 The role of the degradation system of the juvenile hormone in the reproduction of *Drosophila* under stress

L. Zurek and B. A. Keddie 743 Contribution of the colon and colonic bacterial flora to metabolism and development of the American cockroach *Periplaneta americana* L.

G. W. M. Bothe and S. Galler 749 Mechanical properties of active and degenerating eclosion muscles of the flesh fly, *Sarcophaga bullata*

G. A. Horridge — 755 The honeybee (*Apis mellifera*) detects bilateral symmetry and discriminates its axis

H. Zeng, B. G. Loughton and K. R. Jennings — 765 Tissue specific transduction systems for octopamine in the locust (*Locusta migratoria*)

A. L. Deng, B. Torto, A. Hassanali and E. E. Ali — 771 Effects of shifting to crowded or solitary conditions on pheromone release and morphometrics of the desert locust, *Schistocerca gregaria* (Forskål) (Orthoptera: Acrididae)

U. Skibbe, J. T. Christeller, P. T. Callaghan, C. D. Eccles and W. A. Laing — 777 Visualization of pH gradients in the larval midgut of *Spodoptera litura* using ^{31}P-NMR microscopy

G. Facciponte and A. B. Lange — 791 Control of the motor pattern generator in the VIIth abdominal ganglion of *Locusta*: descending neural inhibition and coordination with the oviposition hole digging central pattern generator

G. S. Wheeler, M. Tokoro, R. H. Scheffrahn and N-Y. Su — 799 Comparative respiration and methane production rates in Nearctic termites

D. S. Saunders and B. Cymborowski — 807 Removal of optic lobes of adult blow flies (*Calliphora vicina*) leaves photoperiodic induction of larval diapause intact

813 Erratum

I Contents of *Insect Biochemistry and Molecular Biology*

VI Instructions to Authors

NUMBER 9

Carlos Ribeiro, Nelson Simões and Michel Brehélin — 815 Insect immunity: the haemocytes of the armyworm *Mythimna unipuncta* (Lepidoptera: Noctuidae) and their role in defence reactions. *In vivo* and *in vitro* studies

Elisabeth P. J. Burgess, Louise A. Malone and John T. Christeller — 823 Effects of two proteinase inhibitors on the digestive enzymes and survival of honey bees (*Apis mellifera*)

Andreas Wiesner, Daniela Wittwer and Peter Götz — 829 A small phagocytosis stimulating factor is released by and acts on phagocytosing *Galleria mellonella* haemocytes *in vitro*

Pablo E. Schilman, Josué A. Núñez and Claudio R. Lazzari — 837 Attributes of oviposition substrates affect fecundity in *Rhodnius prolixus*

Jin-Tun Lin and Chin-Yih Wu — 843 Characteristics of histamine receptors on the ocellar L-neurons of American cockroach *Periplaneta americana*

Gary T. Wassmer, William Cain and Terry L. Page — 851 Photoperiodic regulation of hemolymph protein in the woodroach *Parcoblatta pennsylvanica*

Fumio Hayashi — 859 Insemination through an externally attached spermatophore: bundled sperm and post-copulatory mate guarding by male fishflies (Megaloptera: Corydalidae)

Anthony D. Curtis and Deborah A. Waller — 867 The effects of decreased pO_2 and increased pCO_2 on nitrogen fixation rates in termites (Isoptera: Rhinotermitidae)

Thomas J. Kelly, Timothy G. Kingan, Carol A. Masler and Carol H. Robinson — 873 Analysis of the ecdysiotropic activity in larval brains of the tobacco hornworm, *Manduca sexta*

Charles E. Linn, Marlene G. Campbell, Kathy R. Poole, Wen-Q. Wu and Wendell L. Roelofs — 881 Effects of photoperiod on the circadian timing of pheromone response in male *Trichoplusia ni*: relationship to the modulatory action of octopamine

Jon S. Miller and David W. Stanley-Samuelson — 893 The pharmacology of indomethacin, a prostaglandin biosynthesis inhibitor, in larvae of the tobacco hornworm, *Manduca sexta*

Marcelo G. Lorenzo and Claudio R. Lazzari — 903 The spatial pattern of defaecation in *Triatoma infestans* and the role of faeces as a chemical mark of the refuge

Anthony J. Zera and Seiji Tanaka — 909 The role of juvenile hormone and juvenile hormone esterase in wing morph determination in *Modicogryllus confirmatus*

I Contents of *Insect Biochemistry and Molecular Biology*

VII Instructions to Authors

NUMBER 10

Mini-Review
F. M. Horodyski — 917 Neuroendocrine control of insect ecdysis by eclosion hormone

K.-H. Lu, J. Y. Bradfield and L. L. Keeley — 925 Age and starvation effects on hypertrehalosemic hormone-dependent gene expression of cytochrome P4504C1 in the cockroach, *Blaberus discoidalis*

M. Blackford, B. Clarke and L. Dinan — 931 Tolerance of the Egyptian cotton leafworm *Spodoptera littoralis* (Lepidoptera: Noctuidae) to ingested phytoecdysteroids

K. Mikitani — 937 Ecdysteroid receptor binding activity and ecdysteroid agonist activity at the level of gene expression are correlated with the activity of dibenzoyl hydrazines in larvae of *Bombyx mori*

T. Okuda, S. Tanaka, T. Kotaki and H.-J. Ferenz — 943 Role of the corpora allata and juvenile hormone in the control of imaginal diapause and reproduction in three species of locusts

I. A. Glitho, A. Lenga, D. Pierre and J. Huignard — 953 Changes in the responsiveness during two phases of diapause termination in *Bruchidius atrolineatus* Pic (Coleoptera: Bruchidae)

D. E. Wheeler and N. A. Buck — 961 A role for storage proteins in autogenous reproduction in *Aedes atropalpus*

H. Dörr, D. Heß and S. Gramoll — 967 Interstitial voltage and potassium concentration in the mesothoracic ganglion of a stick insect at rest and during neuronal activation

M. G. Wolfersberger — 975 Localization of amino acid absorption systems in the larval midgut of the tobacco hornworm *Manduca sexta*

C. Hirayama, K. Konno and H. Shinbo — 983 Utilization of ammonia as a nitrogen source in the silkworm, *Bombyx mori*

989 Erratum

I Contents of *Insect Biochemistry and Molecular Biology*

III Diary

V Instructions to Authors

NUMBERS 11–12

S. Greenberg and A. Ar — 991 Effects of chronic hypoxia, normoxia and hyperoxia on larval development in the beetle *Tenebrio molitor*

M. K. Petersen, B. Ekbom and H. P. Ravn — 997 Temperature dependent winter survival of *Bembidion lampros* and *Tachyporus hypnorum*

T. Chapman, Y. Choffat, W. E. Lucas, E. Kubli and L. Partridge — 1007 Lack of response to sex-peptide results iin increased cost of mating in *dunce Drosophila melanogaster* females

J. A. Harvey — 1017 *Venturia canescens* parasitizing *Galleria mellonella* and *Anagasta kuehniella*: is the parasitoid a conformer or regulator?

S. W. Nicolson and L. C. Isaacson — 1027 Mechanism of enhanced secretion in the warmed Malpighian tubule of the tsetse fly, *Glossina morsitans morsitans*

R. E. Down, A. M. R. Gatehouse, W. D. O. Hamilton and J. A. Gatehouse — 1035 Snowdrop lectin inhibits development and decreases fecundity of the Glasshouse Potato Aphid (*Aulacorthum solani*) when administered *in vitro* and via transgenic plants both in laboratory and glasshouse trials

M. P. J. De Winther, P. M. M. Weers, J. Bogerd and D. J. Van Der Horst	1047	Apolipophorin III levels in *Locusta migratoria*. Developmental regulation of gene expression and hemolymph protein concentration
P. D. Blake, I. Kay and G. M. Coast	1053	Myotropic activity of *Acheta* diuretic peptide on the foregut of the house cricket, *Acheta domesticus* (L.)
S. R. Palli, S. S. Sohi, B. J. Cook, A. J. Brownwright, G. F. Caputo and A. Retnakaran	1061	RNA- and protein-synthesis inhibitors induce apoptosis in a midgut cell line from the Spruce Budworm, *Choristoneura fumiferana*
H. Kovac and S. Schmaranzer	1071	Thermoregulation of honeybees (*Apis mellifera*) foraging in spring and summer at different plants
K. J. Siegert	1077	Phosphorylase activities in pharate adult and adult tobacco hornworms, *Manduca sexta*
K. Y. Mumcuoglu, R. Galun, Y. Kaminchik, A. Panet and A. Levanon	1083	Antihemostatic activity in salivary glands of the human body louse, *Pediculus humanus humanus* (Anoplura: Pediculidae)
P. K. Visscher, K. Crailsheim and G. Sherman	1089	How do honey bees (*Apis mellifera*) fuel their water foraging flights?
M. Schinuch	1095	Receptor responses in labellar taste hairs of the housefly *Musca domestica* to aqueous solutions of KCl and $CaCl_2$
M. J. Loeb and R. S. Hakim	1103	Insect midgut epithelium *in vitro*: an insect stem cell system
P. Sánchez, H. Cerda, A. Cabrera, E. H. Caetano, M. Materán, F. Sánchez and K. Jaffé	1113	Secretory mechanisms for the male produced aggregation pheromone of the palm weevil *Rhynchophorus palmarum* L. (Coleoptera: Curculionidae)
A. Brune and M. Kühl	1121	pH profiles of the extremely alkaline hindguts of soil-feeding termites (Isoptera: Termitidae) determined with microelectrodes
H. Shinbo, K. Konno, C. Hirayama and K. Watanabe	1129	Digestive sites of dietary proteins and absorptive sites of amino acids along the midgut of the silkworm, *Bombyx mori*
